From the calculation above, the highest transaction value is equal to 39.91 percent based on a total value of consideration paid basis and when combined with the asset acquisition transaction occurred over the past six months prior to the date on which the Board of Directors' Meeting resolving to approve the transaction, which is capital increase and newly issued ordinary shares paid up in Planet, totaling of Baht 228,000,000 as per proportion of the shareholding of the Company, as per the resolution of the Board of Directors' Meeting No. 2/2018 on 27 February 2018, the highest transaction value is 48.10 percent, which under the total consideration value basis is considered as the Class 2 of the Notification of Acquisition or Disposal of Assets. As a result, the Company is required to disclose the information memorandum on entering into such transaction to the SET and to send a circular letter to the shareholders of the Company within 21 days from the date on which the information memorandum on entering into such transaction is disclosed to the SET.

### 3.3) Reasons of entering into the transaction

The Company foresees that currently the MDF Board is widely accepted to use in the production of furniture and decorating accessories, as its specification is similar to the natural wood with the lower price compared with the natural wood or plywood. In addition, there are no substituted products in the manufacturing of the furniture; thus, the usage of the MDF Board tends to increases continually. Moreover, the growth trend of related industry; for example, residential and furniture construction industry, is also a driven factor of the increase in the usage of the MDF Board.

For a wood material, especially the rubberwood, there is a large amount of rubber-wood and are a large number of available areas ready for cutting the rubber-wood in Thailand. Thus, the cost of wood material for the MDF Board production is relatively cheaper than other competitive countries. The location of the Planet's MDF Board manufacturing plant is in Yi-ngor district, Narathiwat Province, near the raw material area in the three southern border provinces. As the location has numerous rubber-wood plantation areas, the rubber-wood is sufficient for producing the MDF Board on a continuous basis.

As a consequence, the Company plans to expand an additional business further from furniture producing and distributing, the main business of the Company, to the related

#### 6. The Basis of the Value of Consideration Paid

The Company will enter into the assets acquisition transaction by investing in the MDF Board production and distribution with the investment value not exceeding Baht 1,456.31 million. The basis of the values consideration paid in the transaction is the agreed price between Planet and sellers or contractors based on the current market price taken into consideration of the value of consideration paid from the feasibility study. It has been expected to receive the internal rate of return of the project (Project IRR) of not lower than 10.43 percent per year with the payback period not exceed 10 years, and the internal rate of return on equity (Equity IRR) of not lower than 11.66 percent per year with the payback period not exceed 11 years.

## 7. Benefits to the Company from the Transaction

- 1) To expand the scope of the operation of business from the furniture production and distribution, the main business, to the related business which is the MDF Board production, which is an investment through Planet. This supports business or the upstream business, which can integrate the overall business and drive the capability, profit and the Company's sustainable growth in the long term.
- 2) The investment project has a potential growth as the demand on MDF Board in the market has increased continually, including the growth in the related businesses such as residential construction industry and furniture industry tend to use the MDF Board in the production, as its specification is similar to the natural wood, at a lower price, and there are not yet substituted products.

3) This project that the Company will invest in is the assets which generate a reasonable return and support a stable growth and income of the Company in the future. The project is expected to complete at the end of the year 2019. In addition, the Company's profit can be realized based on the shareholding proportion at 57.00 percent of Planet's total sold shares which can support the Company's profit, stable cash flow in the long term and the dividend payment capability to shareholders.

#### 8. Source of Fund

The investment in manufacturing plant production and distribution of the MDF Board has an investment has the value of approximately at Baht 1,456.31 million with the source of fund as follows:

Source of Fund		Fund	Proportion	
		(Baht million)	(percent)	
1.	Newly ordinary shares from Planet's shareholders	633.13	43.47	
2.	Loan from financial institution	823.18	56.53	
	Total	1,456.31	100.00	

At the present, Planet is in the process of negotiation of an indicative term sheet with a financial institution which consists of Letter of credit (L/C), Trust Receipt (T/R), and the long-term credit line not exceed Baht 823.18 million in total. There are no loan conditions specified affecting the rights of shareholders in this such as the dividend restriction, provided that there is no default or breach of the loan agreement with the bank and Planet is in compliance with the specified financial covenants thereunder. The money paid for newly ordinary shares received from Planet's shareholders will be used as the rest of the funds. Thus, Planet would have a sufficient fund to enter into the transaction.

Although the total investment value of Baht 1,456.31 million is expected to be the highest investment value, if Planet will further invest in addition to such investment value which may occur in the future, the Company will comply in compliance with the criteria of the Notification of Acquisition or Disposal of Assets and will disseminate such information through the SET's system accordingly.

#### 9. Condition for the entering into the transaction

As this entering into the transaction is considered as the Class 2 of the Notification of Acquisition or Disposal of Assets, after the meeting of Board of Directors No. 7/2018, held on 27 June 2018, the Company is therefore required to disclose the information memorandum on entering into such transaction to the SET and to send a circular letter to the shareholders of the Company within 21 days from the date on which the information memorandum on entering into such transaction is disclosed to the SET.
