# 5. LOAN TO OTHER PARTY

This account represented loan for a period not exceeding 15 years to Inter Far East Energy Corporation Public Company Limited (interest at 6.25% p.a., due within March 2019 and secured by common shares of borrower's subsidiary) in the form of deposit for feasibility study of investment in the 1-Megawatt solar power plant project of CR Solar Co., Ltd. "CRS", located at Amphur Thern in Lampang province, instead of investment in the biomass power plant project of True Energy Power Lopburi Co., Ltd. "TRUE-P" whereby the Company completed its feasibility study but was unsuccessful in negotiation for investment. Accordingly, the Company decided to do the feasibility study for solar power plant project of CRS instead (both CRS and TRUE-P are subsidiaries of the borrower). On December 22, 2017, the Company, borrower, and CRS entered into the Memorandum of Understanding for determining the condition that such loan and related interest receivable will be able to use as deposit on future settlement of the price on purchase-sale of the business if the Company is satisfied by outcome of the feasibility study and decides to invest. As at June 30, 2018, the Company has been during the process of feasibility study as well as due diligence for the appropriate value of the project whereby such loan has been charged for interest until its maturity period is reached or the condition under such Memorandum of Understanding is fulfilled. The Company and CRS have agreed to extend duration for due diligence process to be within August 31, 2018 as well as duration for entering into purchase-sale agreement of business to be within September 30, 2018.

Investment in subsidiaries accounted for using the cost method

At the Board of Directors' meeting on January 23, 2018, the Board of Directors passed the resolution to approve the change in the shareholding structure of Planet Board Co., Ltd. ("PNB") with the sales of existing shares held by the Company in PNB of 4,300,000 shares or 43% of the entire shares issued to relatives of related persons and to non-related persons in total amount of approximately Baht 5.4 million which was based on the paid-up share value. Subsequently, at the Board of Directors' meeting on February 27, 2018, the Board of Directors passed the resolution to approve the investment budget for the increase in PNB's authorized share capital amounting to Baht 400 million (from Baht 50 million to Baht 450 million) to support the MDF board and particle board manufacturing project whereby such increase in share capital shall be done with respect to the existing proportion of the shareholders that pertained to the Company's portion of 57% amounting to Baht 228 million.

At the extraordinary shareholders' meeting of ECF Power Co., Ltd. ("ECF-P") on April 12, 2018, the shareholders unanimously passed the resolution to approve the increase in authorized share capital of ECF-P amounting to Baht 25 million (from approximately Baht 522.7 million to Baht 547.7 million). ECF-P has increased its share capital and registered this increase in share capital with the Ministry of Commerce on April 24, 2018. During the three-month period ended June 30, 2018, the Company paid for such increase its share capital together with the unpaid first share subscription to ECF-P totalling Baht 30.7 million.

During the three-month period ended March 31, 2018, the Company changed the implication and wording for investment in Safe Energy Holding Co., Ltd. ("SAFE") from associate to joint venture in respect of the new information from SAFE that the passing votes for any resolutions in the Board of Directors' meeting of SAFE shall be derived, at least, from a director who is the representative of each shareholder. Hence, the joint control is formed and investment in SAFE is investment in joint venture whereby the presentation and valuation in the consolidated financial statement is the same to investment in associate i.e. the equity method is applied.

The Group's joint venture (SAFE) arranged the measurement of fair values of identifiable assets and liabilities at the acquisition date (June 2017) of three subsidiaries of SAFE i.e. Prize of Wood Green Energy Company Limited ("PWGE"), (2) Safe Biomass Co., Ltd. (SAFE-B) and (3) Bina Puri Power (Thailand) Co., Ltd. ("BINA"). This measurement was done by the independent appraiser and completed during 2018 which was not exceeding the measurement period specified in the related Thai financial reporting standard (TFRS 3). Net fair values of identifiable assets and liabilities of the entire three subsidiaries differed from the cost of investment and the carrying amounts of net assets previously recorded by the joint venture and the Group through the investment in joint venture accounted for using the equity method in the consolidated financial statements in the net amount of approximately Baht 2.5 million. Accordingly, the Group retrospectively adjusted the consolidated statement of financial position as at December 31, 2017 in respect of the results from such measurement as if the accounting records for business combination between the joint venture and its three subsidiaries had been completed since the acquisition date in 2017. Such retrospective adjustment resulted in the decrease in balances of investment in joint venture accounted for using the equity method and unappropriated retained earnings in the consolidated statement of financial position as at December 31, 2017 of approximately Baht 2.5 million from the previously reported balances (mainly were adjustments for depreciation and amortization relating to the increase in net fair values of the joint venture's subsidiaries).

Summarized information relating to the measurement of fair values of identifiable assets and liabilities at the acquisition date of three subsidiaries of SAFE is as follows:

	In Million Baht
